## Student-Led Civic Engagement

### Resource List

# Student-Led Civic Engagement

## Webinar Series

In May 2021, the [Center for Public Research and Leadership](#) (CPRL) at Columbia University hosted a 3-part webinar series on student-led civic engagement, a more participatory form of civics education.

CPRL designed the series to:

- Develop a definition of student-led civic engagement
- Share stories about what teaching and learning looks like as part of student-led civic engagement
- Gather resources to help teachers and leaders create opportunities for student-led civic engagement

# Student-Led Civic Engagement

## A Working Definition

Student-led civic engagement means students acquire the knowledge, skills, values, and motivation to make a difference in their communities by leading efforts to address issues that are important to them.

Learn about local government

Build investment in the community

Develop deeper knowledge of local history and issues

Advocate for policy change

# Student-Led Civic Engagement

## Resource List

Throughout the series, CPRL met with teachers, leaders, and researchers. This document compiles the resources they mentioned and more.

### Resources include...

- Frameworks to support the design of curriculum and programs
- Instructional materials and curated lists of curricular resources
- Opportunities for professional development
